

579 US Hwy 87 North ~ P.O. Box 967 ~ Cuero, Texas 77954

June 20, 2016

To Whom It May Concern:

My company, Certified Oilfield Rentals, now Certified Rentals and Services, initially engaged Rick Dudney and TCOR Management to provide risk management services to my fast-growing business in 2010. They came in and helped us improve our HR and HSE programs. A year or two later I asked them to take over my insurance program and help us with fleet safety and DOT compliance.

Rick and TCOR have been great to work with. I find them knowledgeable of the risks my business faces in both South Texas and the Permian Basin. The staff at TCOR is very pleasant to work with and is very responsive. Rick and Kayla have been great at helping us negotiate MSA provisions and design coverage to meet them, and Brenda has helped us manage claims in all areas. They have also been able to negotiate good rates and coverage for us with the carriers, and now as the oilfield has slowed, they were able to reduce our premiums by about 30% while increasing our coverage. It is great working with a company that understands what we face with our own clients in the field.

No one is perfect, but when TCOR has made a mistake, they have been quick to own it and fix it. These days it is nice to find a company willing to stand behind their work like Certified stands behind its work.

You will not be disappointed if you choose to work with TCOR in any capacity.

Sincerely,

Kirk Laging,

President and CEO
