

To whom it may concern:

Our company has been in the construction industry for 20 years. Needless to say, we've dealt with several insurance firms. To date, TCOR has been outstanding. From the customer service we receive on the insurance side, to the expertise on the risk management side, we couldn't ask for more.

From in house to on-site training, I feel like our employees are getting the best safety training there is to offer. TCOR's representatives are knowledgeable and helpful with any request we may have. The on-site visits really improve our employees' confidence when it comes to safety.

TCOR's representatives are always available and quick to respond with any questions or concerns we may have. I would definitely recommend them to anyone looking for a hardworking, client dedicated firm.
